Summary

Full Stack Developer | MERN Stack | React & Node.js

Full Stack Developer with hands-on experience in designing and deploying end-to-end web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Completed two internships where I built 20+ production-grade projects, implemented RESTful APIs, and optimized frontend performance. Adept at writing clean, scalable code and collaborating in agile team environments. Seeking a Software Engineering Internship to contribute to real-world systems while continuing to grow in full-stack and backend development.

Professional Experience

06/2025 – 10/2025
Gurgaon

Unified Mentor, Software / Full Stack Intern

- Designed, developed, and tested full-stack applications using React, Next.js, Node.js, and MongoDB
- Solved real-world problems by implementing RESTful APIs and optimizing UI performance
- Collaborated with team members to understand requirements and deliver scalable solutions
- Applied debugging and problem-solving techniques to improve application reliability

12/2024 – 05/2025
Bhilwara, Rajasthan

Media City, Full Stack Web Developer Intern

- Completed five-month internship at Media City, acquiring essential and advanced Full Stack Web Development skills.
- Developed expertise in HTML, CSS, JavaScript, React, Vite.js, Next.js, Node.js, MongoDB, Express.js, and API integration.
- Gained hands-on experience in front-end and back-end development within real-world project structures.
- Built over 20 professional projects to enhance confidence and capabilities as a Full Stack Developer.

Education

08/2023 – Present
Ajmer

BCA (Bachelor of Computer Applications), Maharshi Dayanand Saraswathi University 2023 – 2026 (Expected)

- Building a strong foundation in **Computer Science, Programming, Web Technologies, and Database Management**
- Developing **problem-solving, logical thinking, and software development skills**
- Focused on preparing for a professional career in **Software Engineering and Web Development**

2022 – 2023
Bhilwara, Rajasthan

Commerce (Computer Science), Mahesh Shiksha sadan

- I completed my 12th grade in Commerce with Computer Science from Mahesh Shiksha Sadan, Bhilwara, securing 70% marks During my studies, I developed a strong foundation in commerce subjects such as Accountancy, Business Studies, and Economics, along with technical knowledge in Computer Science and Information Technology This combination of business and tech skills sparked my interest in web development and software technology, motivating me to pursue further studies in the IT field

Skills

- HTML, CSS, JavaScript
- React, Next.js, Node.js, Express
- REST APIs

Projects

Rathi Research Group – Research Lab Website (Freelance) [🔗](#),

Full-stack app with user authentication, REST APIs, and database integration

- Developed a professional website for a drug discovery research lab featuring sections for research, publications, team profiles, lab facilities, and collaborations
- Designed a clean and academic UI to showcase the lab's work in drug design, green synthesis, and bio-molecular validation

ICBTM – International Conference Website (Freelance) [🔗](#),

Built reusable components and optimized frontend performance

- Built a fully responsive conference website for an international academic event on Integrative Chemistry, Biology & Translational Medicine
- Included speaker profiles, event schedule, registration, gallery, and committee information for a seamless attendee experience

Makaan – Real Estate Website (Internship) [🔗](#), Developed a responsive real estate website (Makaan) with property listings, search filters, and agent profiles during my internship.

- Built a fully responsive real estate website with property listings, search filters, and agent profiles
- Enabled users to browse properties by type and location with a clean and modern UI

Uniqo – E-Commerce Website (Internship) [🔗](#), Developed a fully responsive e-commerce website (Uniqo) with modern UI, built using React.js during my internship at Media City.

- Developed a fully responsive e-commerce web application using React.js
- Implemented modern UI/UX design with smooth navigation and product browsing experience

GoTrip – Travel & Tour Booking Website (Internship) [🔗](#), Developed a responsive travel and tour booking website (GoTrip) featuring tour packages, search functionality, and a blog section during my internship.

- Built a fully responsive travel website with tour package listings, destination search, and booking features
- Included blog section, testimonials, and agent contact pages for an end-to-end travel experience
